Mission Statement

The 15th International Ocular Inflammation Society (IOIS) Congress and 5th Assembly of Ocular Inflammation Society is organized by the International Ocular Inflammation Society (IOIS) and hosted by the Taiwan Uveitis Study Group/Taiwan Retina Society (TUSG/TRS).

The Congress will be held in Kaohsiung from November 13-16, 2019. Kaohsiung is the 5th Best City to visit in 2018 suggested by Lonely Planet. It will be a unique gathering of all major ocular inflammation societies with their world-renowned members as active participating delegates. The Scientific Committee will be organizing robust scientific sessions, covering intraocular and extra ocular inflammatory and infectious disorders, including recent advances in ocular imaging, clinical and surgical treatment of recalcitrant ocular inflammations, evolving infectious uveitis entities, as well as current understanding of the underlying pathogenesis of disorders such as age-related macular degeneration and diabetic retinopathy. Moreover, the program will include surgical interventions in uveitis complications such as secondary cataract, medical and surgical management of glaucoma, retinopathy and others.

It is the first time that the IOIS Congress is being held in Taiwan in conjunction with annual meeting of Taiwan Retina Society and the TUSG/TRS is honored to host it and to welcome colleagues from around the world to Taiwan.

MEET & NETWORK

For all groups committed to fight sight threatening ocular inflammation and infection, this is an event not to be missed and a unique opportunity to interact with the leading experts in the field.

Previous IOIS Meetings

The congress of the International Ocular Inflammation Society (IOIS) was first introduced in 1990 in Alicante Spain. Since then every two years it became the primary platform for exchanging scientific and clinical informations globally. It was held in Jerusalem, Fukuoka, London, Amsterdam, Istanbul, Padova, Granada, Paris, Prague, Goa, Valencia, San Francisco and Lausanne. In Goa 2011 the first Assembly of International Ocular Inflammation Societies in conjunction with the IOIS congress was organized. Since then the IOIS congress is twinned to the Assembly of the International Ocular Inflammation Societies.

In the last years the number of attendees increased to over 700.

Therefore the IOIS congress became a unique live education event, offering a large number of scientific sessions that present successes and challenges on a global level.

Possibilities to meet and network between delegates are numerous as well as interactions with commercial and non-commercial entities through exhibitions and satellite symposia.

For all groups committed to fight sight threatening ocular inflammation and infection, this is an event not to be missed and a unique opportunity to interact with the leading experts in the field.

HOW CAN YOU GET INVOLVED?

EXHIBITION AREA

You can be present on the exhibition area (m²) which is situated between the conference halls to show your latest products and take advantage of the advertising opportunities available.

SATELLITE SYMPOSIUM

Organizing a satellite symposium as a lunch or breakfast meeting would maximise your presence at the meeting. At previous congresses these satellite symposia were a great success for the commercial entities as well as for the delegates.

What does it cost to get involved?

The 2019 IOIS Congress will offer supporters and exhibitors unparalleled opportunities to:

- Interact with the global leaders in the field of ocular inflammation and infection.
- Face-to-face contact with over 800 delegates from all continents and major ocular inflammation societies around the world.
- Increase visibility among Congress attendees on signage throughout the exhibit hall.
- Introduce and promote new products and services.
- Be acknowledged in handouts included in the registration packet distributed to all attendees.

SPONSOR LEVELS

PLATINA

Items for plus 75.000 EUR

GOLD

Items for between 50.000 & 75.000 EUR

SILVER

Items for between 30.000 & 50.000 EUR
